# Foam and Cream Dispensers

4

Kabri trading provide wide range of soap and cream dispensers , all dispensers is manufactured by CWS and holds worldwide patents. It is produced by a company with 50 years in the washroom hygiene industry and an established product in European hotels, restaurants, airports, and corporate facilities. Which soap is the right one? Cream soap? Foam soap? Or a good old bar of soap?

This is a question that operators of public washrooms need to consider as early as the planning or renovation stage, as there are different dispensers available for the different types of soap. But design isn't the only important factor when it comes to choosing a soap: the users' desire for hygienic hands and a hygienic washroom should also be taken into account, as should ecological and environmental aspects.

## Product Overview

Paradise Foam and cream dispensers “Easy cleaning” and “Click-in-Bottle” systems guarantee rapid and clean replacement of the cartridges. No dripping thanks to recirculation pump. Foam generator with integrated reserve tank (approx. 160 portions) generates approx. 1,250 portions of foam soap. Upside-down cartridge ensures product is completely consumed. Simple single-handed operation.

Housing made of impact-proof, anti-static plastic, with lock. Rounded edges ensure no risk of injury. The white front can be customized with panels in a variety of colors. Comes complete with fastening materials, delivery and installation
